**CAR CARE SCIENTISTS**

### 93.39 ORBIM-O 500V EXTERIOR SHINING

After cleaning your car, you need a product that will make water into beads and help you dry it without leaving marks. On a moist and clean car, spray Orbim economically from a distance and you will see the water become beads. With a leather or a plastic wiper, remove all excess water and get a dazzling shine. On a dry and clean car, you can spray Orbim economically and wipe with a microfiber cloth to give an extra shine to your car.

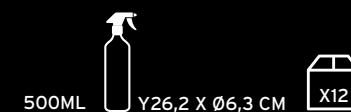

### 93.38 ORBLAK-GL500V HIGH GLOSS TYRE SHINING

The present liquid contains special cleaners, softeners, waxes and shiny filmmakers which do not evaporate, neither are absorbed, thus providing a layer that renders tire surfaces black and shiny for a long period of time. Application is done with by spraying and brushing economically on a clean tyre.

### 93.41 ORTEP-F 500V INTERIOR CLEANER

Spray economically, let it to soak for 30 seconds and brush gently to remove dirt and refresh your interior. Dry with a fresh cloth to remove excess moisture.

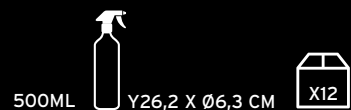

### 93.12 ORBIK-I500V GLASS CLEANER

By spraying and then wiping with an absorbent paper or a damp cloth your glass from the outside / inside you will get crystal clear results. Removes hazing from windows and leave the glass with antistatic properties (does not attract dust)

### 93.17 ORBIPAL-N500V WHEEL CLEANER

Spray your rims directly and wait for 2-3' to soak the dirt. Rinse off with pressurised water and swipe clean with a dry microfiber brush or cloth. Tip: Cool off your rims before cleaning them.

### 93.40 ORGLIS-LEV 500V WATERLESS CARWASH

Orglis has the ability to soften and extract rapidly (with the aid of micro - fiber towel) sludge, insects, stains and any dirt from the road of the car surface. Shines and protects car surface. Spray the car surface in sectors and using a clean microfiber cloth, swipe the surface in one direction. Do not mop the surface. After cleaning re swipe using a dry microfiber cloth to buff the shining. Avoid using dirty or very moist cloths.

### 93.24 ORSIL-IBC500V DASHBOARD POLISH

Spray 2-3 doses of Orsil to your cloth and swipe the surface of your dashboard and interior plastics, leather. This way you get a clean, shiny and UV protected car interior. Orsil is self shining and does not need buffing.

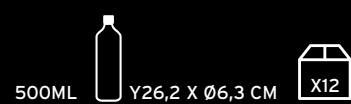

### 92.19 ORESP-ORA500V CITRUS MIST

ORGRIN is a viscous white emulsion with a distinctive freshness-green lemon odor. It is based on a complex synergistic synthesis of emulsions, tensides and fragrances which ensure prolonged scent of freshness.

### 93.45 ORBIMAX CAR SHAMPOO

ORBIMAX is a viscous high foaming shampoo with resistance to hard water, which has the ability to rapidly remove mud, insects, stains and all kinds of dirt road from the surfaces of the car using a sponge. Usable for hand wash, foam guns or foam makers. End dilution 2% with water. Use 25-50 ml of shampoo per 10 liter of water. Rinse with clean water and dry with a microfiber cloth.

### 93.23 ORBEX-A500V ENGINE HD CLEANER

Orbex-A is a powerful detergent solution with impressive effectiveness in almost all every day cleaning problems and especially in cleaning easily solid surfaces like truck, cars, tractors from oil, sludge and dirt. Its primary components are powerful dispersants, water softeners, emulsifiers and special surfactants which safely disperse oils and stains of all kinds. ORBEX-A is rust-resistant, foam-controlled and biodegradable. Spray the surface to be cleaned, wait for 10-15' and then rinse with water. Do not wash under sun.

### 93.13 ORGRIN-500V AIR FRESHENER

ORGRIN is a viscous white emulsion with a distinctive freshness-green lemon odor. It is based on a complex synergistic synthesis of emulsions, tensides and fragrances, which ensure prolonged scent of freshness.

### 93.35 ORBLAK-GL500 HIGH GLOSS TYRE SHINING

The present liquid contains special cleaners, softeners, waxes and shiny filmmakers which do not evaporate, neither are absorbed, thus providing a layer that renders tire surfaces black and shiny for a long period of time. Application is done with by spraying and brushing economically on a clean tyre.
